# **Trans\*, Two-Spirit, Intersex Landscape Survey**

## **Community Directory**

## **What is the Trans\*, Two-Spirit Intersex Mapping Project?**

The Landscape Survey is the result of research conducted by DataCenter and commissioned by the Arcus Foundation. The project involved a nation-wide survey of organizations in the US focused on or serving trans\*, two-spirit and intersex (t/t-s/i) communities. The project was designed to provide baseline data regarding trans\*, two-spirit and intersex organizing across the country to foundations and other funders interested in supporting this work. It was hoped that the data could also be used to inform social justice work in the U.S., as well as the organizations that took part in the survey.

## **Who is listed in the directory?**

Only the organizations and programs that participated in the survey and consented to have their information made public are listed. As a result, this is not a complete catalog of organizations serving trans\*, two-spirit and intersex organizations in the U.S., but we are confident that this directory does provide a substantial base of reference information.

## **How can the directory be used?**

The directory is a public document and should be distributed far and wide. It can be used to inform members of the community about where to find services or for funders and organizations to see the breadth and depth of trans\*, two-spirit, and intersex work around the country. This directory should not be used for solicitation or any other commercial purpose.

## **How to read the directory**

The directory is organized by state. Please refer to the below entry example.

### **Organization**

#### *Program*

Address

Phone number

email
